

## INTRODUCING THE NEXT LEVEL

---

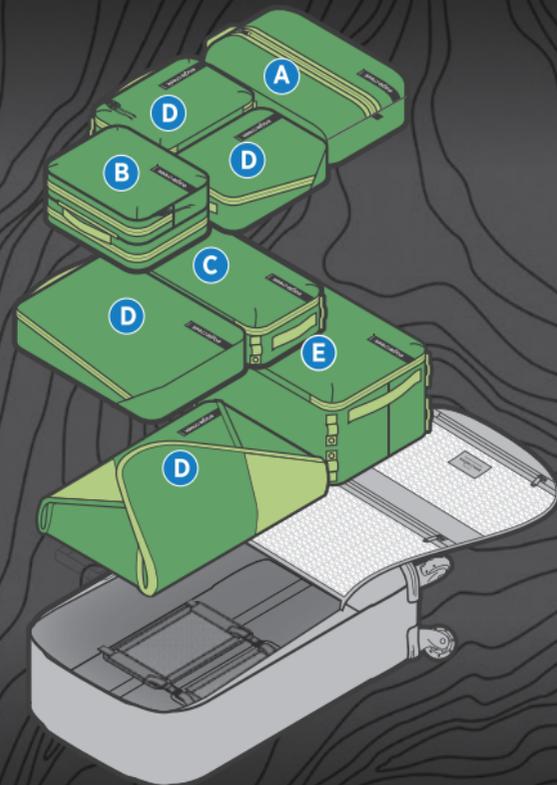

At Eagle Creek, we've made it our mission to simplify bag organization. Our convenient Pack-It Cubes & Sacs make it easy to neatly store clothing, sports gear and electronic accessories.

Our product developers have completely revised the packing system. It proves itself not only on journeys, but also in various outdoor activities and everyday life.

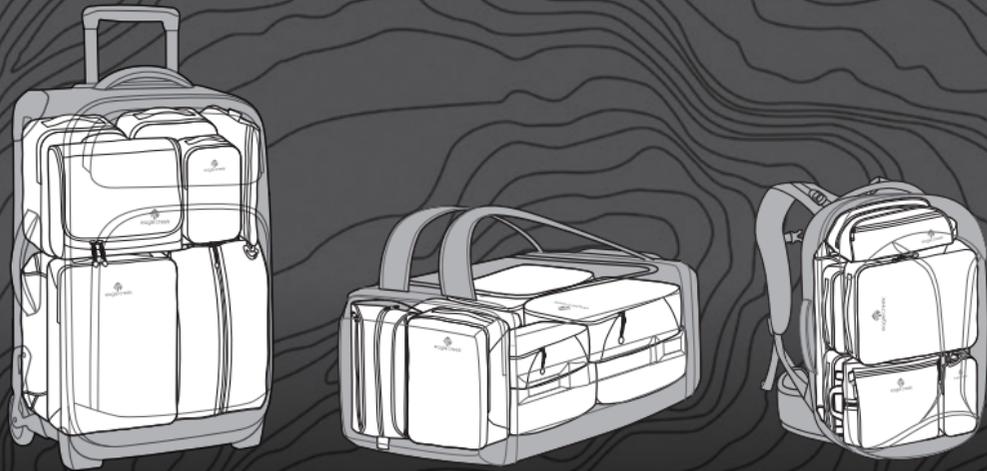

# PACK IT ALL WITH pack-it™

# WORKS IN EVERY BAG

Not only is Pack-It versatile, it maximizes space in your bag. Use it interchangeably to pack whatever you need for wherever you're going.

## CUBES

Packing Cubes featuring innovative angled zippers designed with benefits for visibility and breathability, ultralightweight use, containment of odors and spills and rugged durability for gear.

## FOLDERS

Designed for optimal functionality, Folders minimize wrinkles and are a simple packing solution for the adventurous traveler.

## SHOES

Packing solutions for shoes featuring sustainable fabrics that offer enhanced containment and breathability.

## TOILETRY

Feature intuitive pockets and separation for optimal organization. Sustainable materials and design offer benefits of added structure, protection, and water-resistant containment.

## EVERYDAY ORGANIZATION

Modern adaptive organization system designed to protect electronics and optics with added padding for protection for any items that may scratch or damage easily.

## ...AND MORE

Intuitive packing solutions for those unique items and innovative, multi-purpose organization.

# PACK IT YOUR WAY

We've got a Pack-It for that. Built different to handle your unique needs.

## pack-it **REVEAL**

Full Content Visibility.  
Breathable. Sustainable.

The most sustainable packing solution with the ability to view contents with a wide see-through mesh that also provides breathable organization.

## pack-it **ISOLATE**

Anti-microbial. Translucent.  
Ultra-lightweight.

Lightweight solutions combined with the odor control that provides piece of mind that the sweaty and smelly clothes will stay contained to prevent cross-contamination with other clothing.

## pack-it **GEAR**

Rugged. Protective.  
Water Resistant.

New echelon of packing organization or use both in and out of luggage making it the ultimate protective organization solution.

# SUSTAINABLE CHOICES

Every step we take in the manufacture of products is a step toward preserving our planet for generations to come.

## CAMPING HOLIDAY

Most campers face the same problem: how to keep things tidy in the camper or tent? Eagle Creek offers with Pack-It the solution. From clothes to toothbrushes, they store everything you need on a camping trip.

### Our tips

- Cubes in different colours and sizes store small and large items of clothing neatly and in a space-saving way.
- A toiletry bag with hooks is easy to hang up in the tent.
- Dirty clothes can be stored in one of the Pack-It laundry bags.

// 15

## HIKING

While food is usually well packaged, other equipment ends up disorganized in the backpack and causes chaos. Packing cubes do a good job of solving that problem. They not only make packing easier, but they also help you to keep an overview in your backpack on the go. Everything that belongs together is always together on the spot. You also immediately find what you need without having to empty the entire backpack.

### Our tips

- Warm layers and spare clothing can be stowed away in a Packing Cube.
- Not enough space in your backpack? Then simply pack your clothes in a Compression Cube.
- A Clean/Dirty Cube swallows the damp rain jacket after a rain shower and protects the rest of the equipment in the backpack.

## CYCLING

No matter if you commute to work by bike, take day trips or are going on a round-the-world trip: Bike bags are an indispensable accessory for anyone who travels a lot by bike. Eagle Creek's Pack-It collection can be flexibly combined with your bike panniers and save a lot of time and energy organizing your bike luggage.

### Our tips

- Stowed in a sac, your tyre repair kit, tools or first aid kit are quickly at hand when needed.
- A change of clothes for the office, which should remain as wrinkle-free as possible, is best stored in a Folder.
- Gear Cubes or padded Organizers protect sensitive equipment in the event of a fall.

# EXPERT PACKING TIPS

- 1 Use colors to quickly ID whose is whose when packing for more than one person in a bag.
- 2 Keep dirt out! Pick up a Shoe Sac to keep dirty soles off clean clothes.
- 3 Pack dirty sweaty clothes in anti-microbial Pack-It Isolate or any Laundry Sac.
- 4 Fitting everything in a carry-on is tough, use compression zippers to pack it all in.
- 5 Not a fan of wrinkles? Use a Garment Folder to fold and keep clothes from wrinkling in transit.
